# VALIDATOR CASHPAY

## Benefits:

With Validator CashPay, you can save time, money, and hassle while keeping your staff and customers safe. Validator CashPay is the ultimate cash management solution for the post-pandemic world. Here are some of the benefits of using Validator CashPay:

- Reduce cash handling costs: Validator CashPay reduces the need for cash refills and collections, as it recycles the cash within the machine. It also eliminates the need for staff to count and reconcile cash at the end of the day, saving time and labour costs.
- Enhance customer satisfaction: Validator CashPay offers a fast and convenient payment option for customers who can pay with cash without any contact or hassle. It also reduces the queue time and improves the customer experience.
- Comply with health and safety regulations: Validator CashPay helps you comply with health and safety regulations by minimising the contact between staff and customers and reducing the risk of virus transmission through cash handling.

## Tech Specs

### Usability

The Validator CashPay is a user-friendly and intuitive device that lets you accept and dispense cash without any staff intervention. It has a sleek and modern design that fits any customer-facing environment. It also has a simple and clear display showing the customers the total amount they must pay. With CashPay, you can offer your customers a fast and convenient way to pay with cash.

### Flexible and Adaptable

The Validator CashPay is a versatile and customisable device that can work with any business model. You can use it as a standalone device with the supplied tablet or integrate it into your existing POS system.
